About Dawood Family Takaful Company Limited

Dawood Family Takaful Limited ("DFT") was incorporated in Pakistan as an unquoted public interest company on 4th May 2007 under the Companies Ordinance, 1984. DFT is amongst pioneers in the field of Family Takaful business in Pakistan. At "DFTL" we have a vision to aspire to be the preferred provider of Islamic financial protection services. As a member of First Dawood Group of Companies, Dawood Family Takaful Ltd is strongly capitalized to ensure our ability to timely meet the promises to our customers, and to offer assurance of reliability to our business partners.

What is Takaful?

Takaful is an Islamic Insurance concept which is grounded in Islamic muamalat, observing the rules and regulations of Islamic law. Takaful is basically a system of Islamic insurance based on the principle of Ta'awun (mutual assistance) and Tabarru (voluntary contribution), where the risk is shared collectively by the group" The word Takaful is derived from the Arabic verb Kafala, which means to guarantee; to take care of one's needs.

Difference between Takaful and Conventional Insurance

In conventional insurance, risk is transferred from one party to another. By taking out an insurance policy, an individual essentially is asking the insurance company to accept the complete risk in exchange for accepting an ongoing premium from the insured. But with takaful, the risk is shared among the members of the fund: If an event occurs that causes harm or damage to one member, all members bear the brunt of that event and contribute to overcoming it. Takaful members cooperate based on equality, solidarity, social responsibility, and honesty.
